

SANTA CRUZ COUNTY SANITATION

CONTRACTORS ELIGIBLE TO DO ROAD OPENINGS

The following contractors meet the minimum requirements for licensing, insurance, and knowledge of the County Lateral Program to perform openings for installation/repair of sewer laterals on private property and/or within the public right-of-way under the blanket encroachment permit issued by the County Public Works Department; **provided that their insurance coverage is current.** This list is not intended to refer a particular contractor or provide any endorsement. It is the property owner's responsibility to evaluate and select a contractor.

Contractors holding the following classification are properly licensed to install/repair building sewers:

1. General Engineering (A)
2. Sanitation System (C-42)
3. Pipeline (C-34)
4. General Building Contractors (B) may legally enter into contracts for this work if it is a part of a larger project that falls under the provisions of Business & Professions Code Section 7057.

Contractor licensing information is available here: <https://www.cslb.ca.gov/OnlineServices/CheckLicense/CheckLicense.aspx>

Heavy Civil services include capability to conduct large scale capitol improvement projects and complex retrofit and/or repairs (may conduct projects in coordination with Public Works).

Commercial & Residential services typically include residential / multi-family / and commercial sewer inspection and maintenance services.
